

International Summer Program 2017 – German Language and Culture

Dear Sir or Madam,

we would like to introduce our 36th International Summer Program for 2017.

Our international summer course will take place from **September 1 - 30** and is entitled “German language and culture“. There will be about 18 participants in each group. We teach on levels **A2, B1, B2/C1** (not suitable for absolute beginners).

Alongside classes in general German, the lessons will focus on cultural studies. You will have lessons for four days a week (6x45 min. per day). Aside from this, we offer many **free-time activities and excursions in the region** and Berlin (weekend-trip), for example. Furthermore, we offer trips to museums, films, lectures and guided tours. After successful completion of course, students get **6 ECTS-Credits**.

As excursions and free-time activities accompany the language program, this is an opportunity for prospective students who are considering studying at the Technische Universität in Braunschweig in the winter semester 2017/18 to get to know fellow students and familiarise themselves with the university and the city in general.

We would be delighted if you could show our program to your students and also if you could forward it to other relevant institutions. Students interested in taking part in our program should register as soon as possible.
